

SPIRIT ROCK TIPS & TRICKS

To cover the previous design, a roller or spray paint works well, but be careful with spray paint on a windy day. If possible, cover the previous design a few hours or the day before painting your design.

Watch the weather. We wouldn't want any rain to ruin your artwork.

To map out your design on the rock, chalk or a pencil works well.

Stencil is tricky with the rock's surface. Free hand tends to work best.

Possible supplies:

Paint

Rollers/Brushes

Chalk/Pencil

Paper Towels

Paper plates - to hold paint

Water - to clean brushes and any pencil/chalk mistakes

Cups - add water to clean brushes between colors

Trash bag - remember to clean up all items before leaving
